Your plan

Where does giving fit in this year's plan? Little grants to many, or a lot to a few? Once, or annually?

This year By midnight, December 31, 2026

- [ ] Open a donor-advised fund, or add to the one you have.
- [ ] Decide what to give: stock, cash, crypto, or something else.
- [ ] Fund it.
- [ ] Recommend a first grant to a nonprofit on this page.

Giving stock? It can take 1 to 2 weeks to arrive, so start early.

When you have time, or after it's funded:

- [ ] Experiment with investing in a portfolio
- [ ] Schedule recurring grants to the nonprofits you picked.
- [ ] Invite your advisor or a family member to the fund.
- [ ] Get to know the nonprofits you picked.

Funding it in a hurry? That's fine. Once it's funded, the rest can wait.

A donor-advised fund is something you come back to. The money is already set aside for giving, so there's time to get to know the nonprofits, bring others in, and give with a plan. Same time next year?
